## **Installation Guide**

**Cube of Simple Economy Tool**

# 1-1. Installation

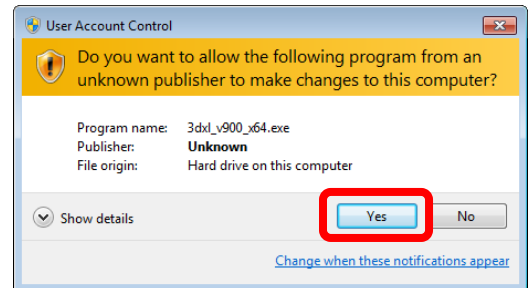

**Make sure to perform the installation after logging on to Windows as a user with administrative rights.**

## 1

- Double-click 3dxi\_v\*\*\*\_x64.exe that has been downloaded. "v\*\*\*" shows the version.
- An installation language selection menu appears. After selecting an installation language, click the [OK] button.

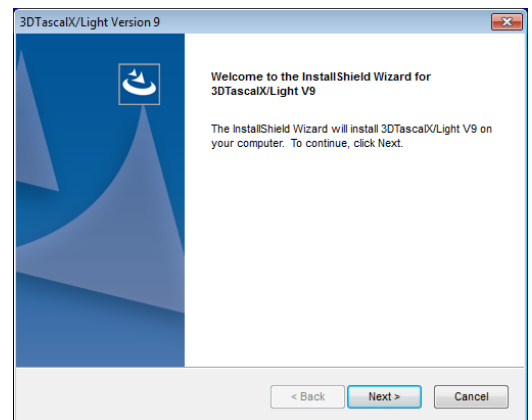

- \* If you have installation disk, etc. then insert it into the drive. After a while, the installer starts automatically.
- \* If [User Account Control] dialog appears, click the [Yes] button.

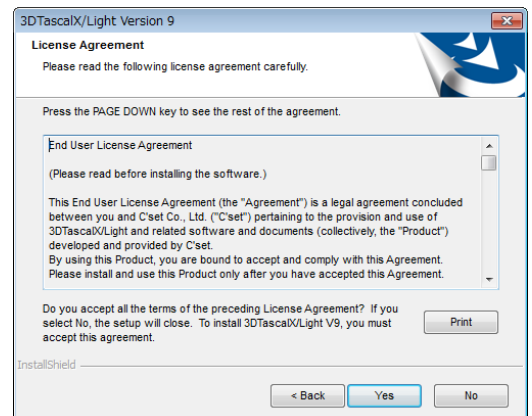

## 2

- After the setup screen is displayed, the [Welcome] dialog appears. Click the [Next] button.
- \* **If 3DTascalX/Light is already installed, a dialog requesting to uninstall it appears. If [Yes] is clicked, all components are deleted.**
- \* **If an old version of 3DTascalX/Light is installed, installation cannot be performed. Uninstall the old version while referring to "1-3. Uninstallation".**

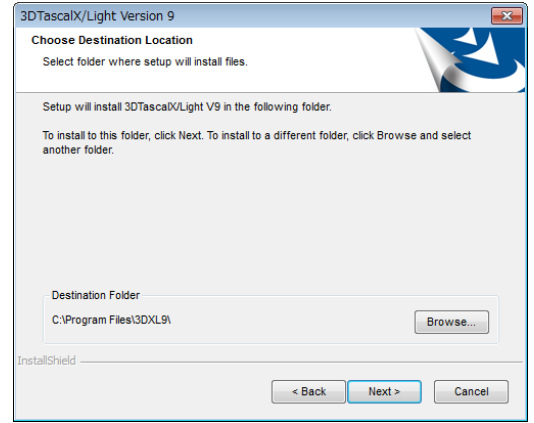

## 3

- [License Agreement] dialog appears.
- Read through it and click the [Yes] button if you agree.
- \* Clicking the [No] button ends the setup.

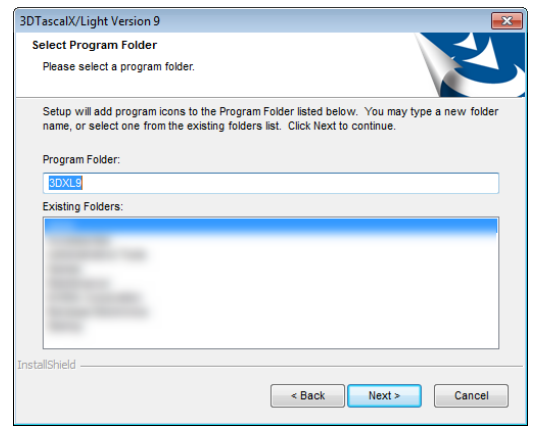

4

- [Choose Destination Location] dialog appears.
  - Specify a 3DTascalX/Light installation folder.
- \* To change the installation location, click the [Browse] button and specify that location.
- After specifying the installation location, click the [Next] button.

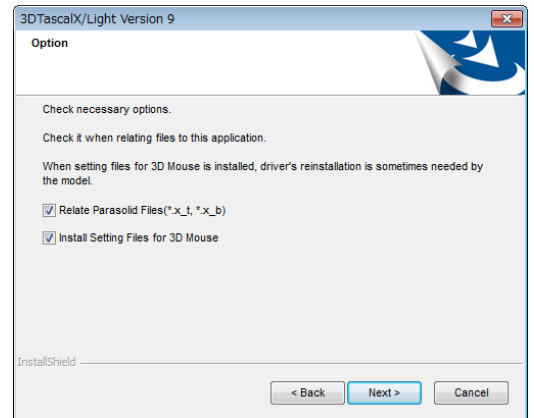

5

- [Select Program Folder] dialog appears.
  - Specify a program folder to add the program icon to.
- \* To change the program folder, enter a new folder name in the [Program Folder], or select from the [Existing Folder] list.
- After specifying the program folder, click the [Next] button.

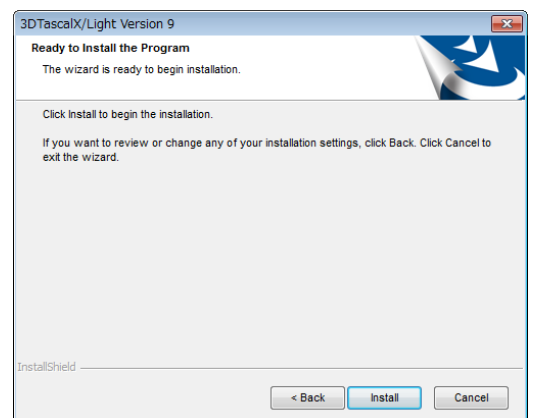

6

- [Option Setting] dialog appears.
- Set the file extensions to associate with 3DTascalX/Light.
- If 3Dconnexion's 3D mouse is installed, configure the installation of the 3D mouse setting files.
- Click the [Next] button.

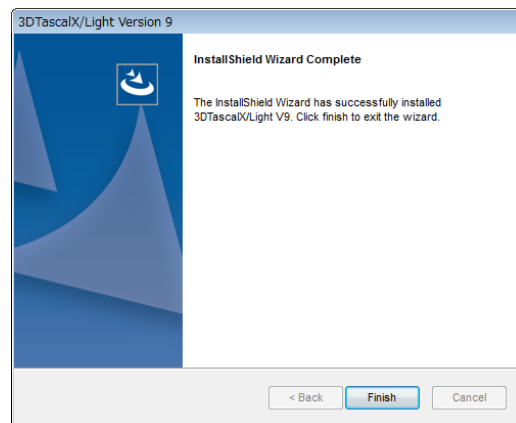

7

- [Ready to Install the Program] dialog appears.
- Click the [Install] button.

**8**

- After the installation is completed, the [InstallShield Wizard Complete] dialog appears.
- Click the [Finish] button to complete the setup.
